

NESY Winterschool & Symposium

22/02–27/02, 2026

Organizing Committee:
(TU Leoben, Chair of Physics)

Rainer T. Lechner
Oskar Paris
Gerhard Popovski
Nadine Aichberger

Program Committee:
Herwig Michor, TU Wien
Roland Resel, TU Graz
Klaudia Hradil, XRC, TU Wien
Heinz Amenitsch, TU Graz @ ELETTRA
Rainer T. Lechner, TU Leoben
Oskar Paris, TU Leoben

Infos & Registration:

nesy.unileoben.ac.at

13th European NESY Winterschool & Symposium on Neutron and Synchrotron Radiation

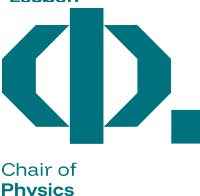

including topical highlight lectures on

Big Data & Machine Learning

&

The 3rd CERIC Satellite Workshop

Bad Aussee (Austria), 22.02–27.02, 2026

The school & symposium will cover **introductory tutorials** in the morning, **contributed scientific talks** in the late afternoon, **topical highlight lectures** in the evening, and a **continuous poster session**. Graduate students and young scientists just starting to work in this field are particularly encouraged to register and to submit an abstract.

The school venue, the **JUFA Bad Aussee** in Styria, is located near the winter resort *Loser* in the *Salzkammergut*, which is quite the **center of Austria's Alps**. Thus excellent possibilities for winter activities are nearby, but also the thermal spa *Narzisstherme*!
